#### WE MAKE YOUR LIFE EASIER.

Welcome to our extensive range of bathroom fixtures and fittings! We are really pleased that you are taking the time to browse our catalogue. By doing so, you are taking the first step towards improving your quality of life!

Our family business is now being run by the fifth generation of owners. We believe it is really important to take a long-term view, to consider sustainability, and to always provide our customers and partners with the best possible products. That is why we create timeless designs that always look both elegant and fit for the future, whatever their surroundings.

We know how valuable your time is, so we have created the ERLAU full-service promise – to make it as simple as possible for you to renovate or upgrade your bathroom. During the planning stages, you can access all of the product information across a range of digital formats. Meanwhile, our experts are also happy to offer advice and recommendations on site.

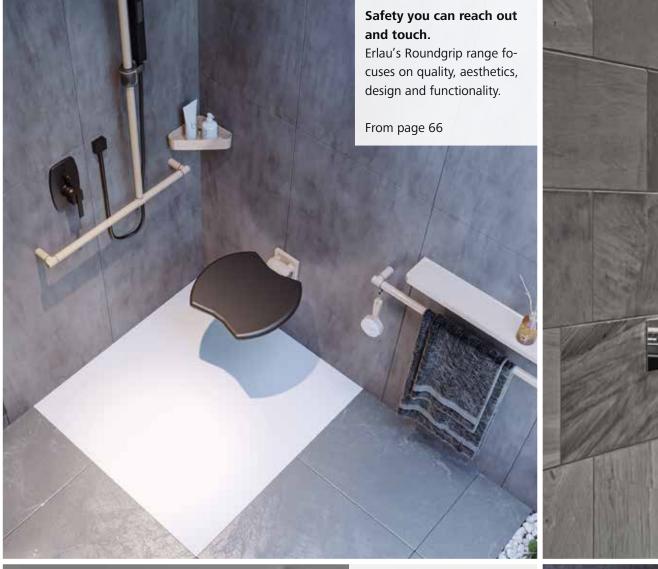

When you place an order with us, you can look forward to quick turnaround times and a simple ordering and delivery process. We even work seamlessly with your trade software, so you can facilitate fully digital processes, from order-taking to invoicing.

We want you to enjoy browsing through our catalogue and we hope that you feel inspired as you do so. In addition, we can arrange to present our ranges to you in person, so we can show you how accessible and sustainable our products are. Get involved and experience the new ERLAU standard: more time for you – let's make life worth living!

Sincerely,

Dr Benjamin Rieger and the ERLAU team

# Haute couture in the bathroom Our new range of accessories CUBE, CIRCLE, CLERELLA and COLORit round off the ERLAU product range. From page 140

# MORE INFORMATION ABOUT ERLAU

You can reach us via a number of channels:

#### **ONLINE SHOP**

shop.erlau.com

- √ 24h order service
- √ Fast delivery times
- √ No shipping charges
- √ Overview of product availability
- √ Flexible and secure payment
- √ Individual shipping date
- √ Extensive download area (specification texts, brochures)

#### How to register in the shop:

- Email company information to: neukunde@erlau.com
- Receive your customer number by email
- Register and create a customer account: shop.erlau.com
- Activate account via customer number: I
   am already an Erlau customer and would like to
   use my customer number to activate my account
- Assign your own password
  - Create customer account
  - Then you can place orders at your designated purchase prices

#### **WEBSITE**

www.erlau.com/accessible-bathrooms

- ✓ Product information

# YOUR BENEFITS

At a glance!

## **FAMILY-RUN**

- √ A family business founded in 1828
- √ We are a value-led company with a long-term outlook and a focus on collaboration
- ✓ We are proud of our traditions and combine these with dynamism and an innovation spirit

## **JUST IN TIME**

- √ Excellent product availability
- ✓ We offer same-day delivery for orders placed prior to 10am (stock-held items)

#### **DIRECT MANUFACTURER PROCUREMENT**

- ✓ Buy directly from the manufacturer
- √ Short supply chains
- √ Expert advice

# YOUR BENEFITS

## At a glance!

## **ONLINESHOP**

- ✓ Place orders 24/7
- ✓ Download centre
- ✓ Online contact form
- √ Electronic catalogue

### **SERVICE**

- ✓ Expert advice available on site or over the phone
- √ As-built documents
- √ Feature recommendations
- √ Samples and display products available at special rates
- ✓ Product listings directly on the building site

#### We can also help with the following...

- √ Compiling schedules of services
- √ Compiling tenders
- √ Implementing customer solutions

## **QUALITY**

#### Our products are distinguished by their:

- √ High quality
- √ Functionality
- ✓ Central fixings without no rosettes for lessdirt and bacteria
- √ Sustainability
- √ Environmentally friendly
- ✓ Durability
- ✓ Design and aesthetics

# INSTALLATION

# Example

Mark it out.

Drill.

Mount the fitting on the wall.

The practical marker (pin) helps with

Simple alignment of the handle. A single strike of the handle marks the second drill hole.

Mount the second fitting on the wall and align.

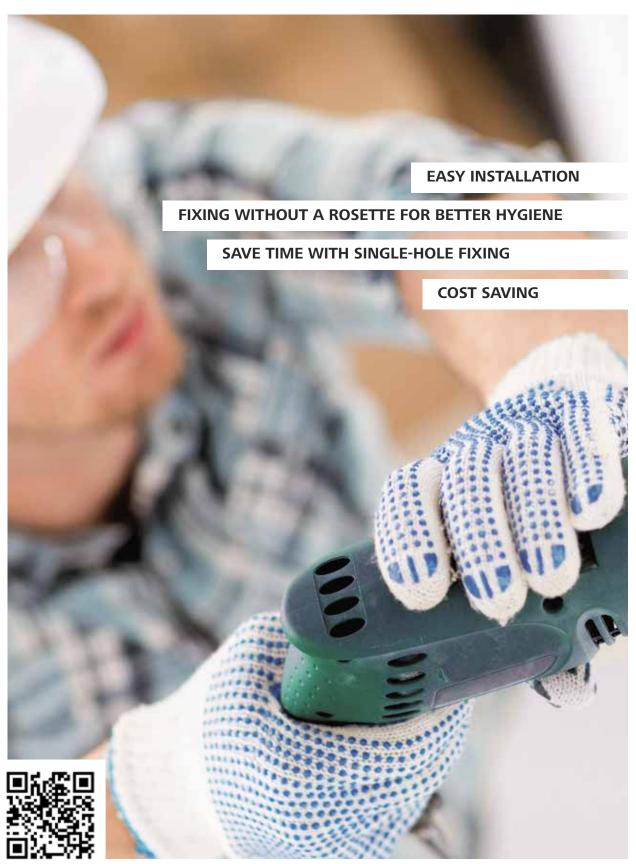

Place the handle tube on the two mounted fittings.

Screw in the set screws and tighten.

The handle is now fixed in position.

You can also find us on YouTube

# **OUR MATERIALS**

Lightweight, stable, durable and 100% recyclable

#### **Aluminium**

...is a sustainable material and can be melted down to create new high-quality products again and again

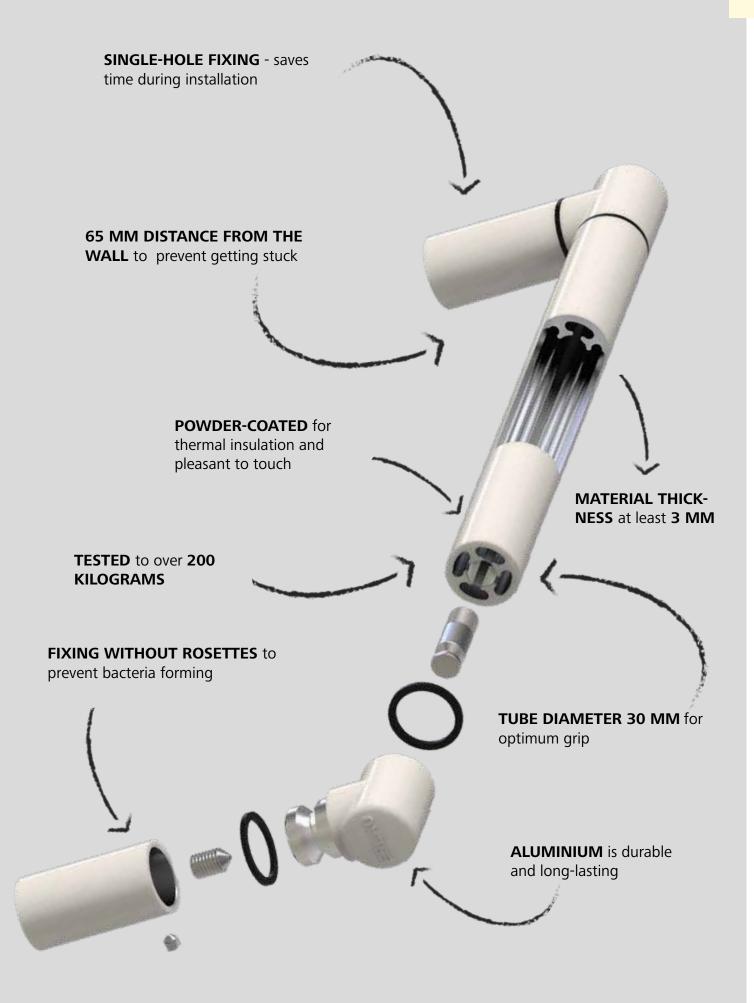

...is a lightweight material, thus saving resources during transportation and assembly

...doesn't emit any substances that can damage groundwater or the environment

...can be anodised into various colours and coated, so offers great design flexibility

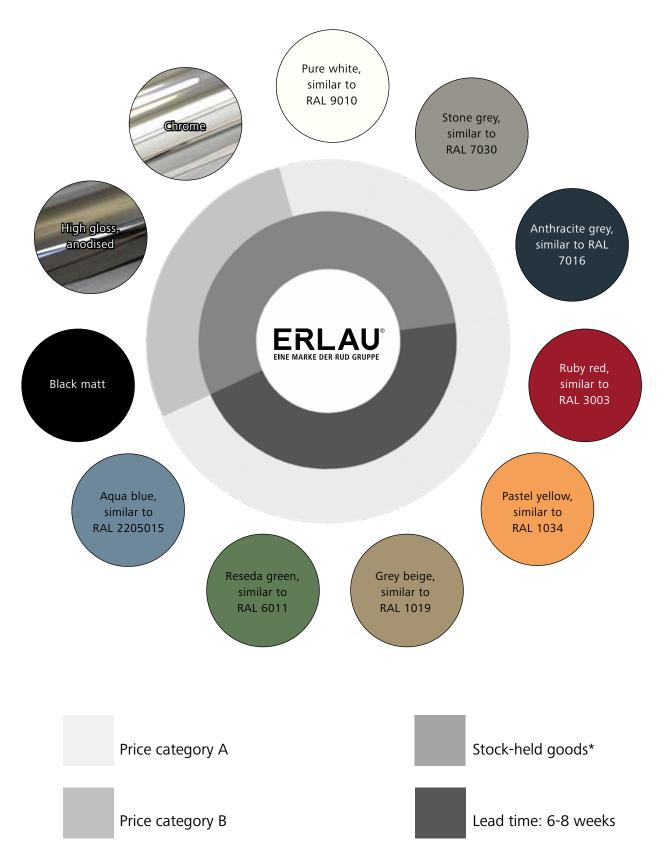

...is economical, flexible and durable

# It's all about the colour!

The ColorLine range's bright colours stand in stark contrast to the often more reserved colour palettes of the tiles and walls. Easier to spot, greater safety and a real eye-catcher for your bathroom.

### GRAB HANDLE HG-R CL

CAN ALSO BE USED AS A TOWEL RAIL

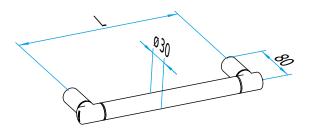

- Roundgrip range ColorLine red/white, made of corrosion-resistant aluminium, powder-coated, colour combination: RAL 3003 ruby red and RAL 9010 pure white

## **CONNECTING PIECE** 68 MM

- Made of corrosion-resistant aluminium, powdercoated or anodised in a high-gloss polish finish
- Extended wall mounting (68 mm), suitable for Erlau shower hand rails, shower rails and grab handles with tiles offset at 1 cm. Pack contains = 1 pc

Uneven tiles? Not a problem for ERLAU - level tiles with our connecting piece 68 mm

#### **CONNECTING PIECE 68 MM**

Article name	Art. no.	
Connecting piece 68 mm	53 780*	

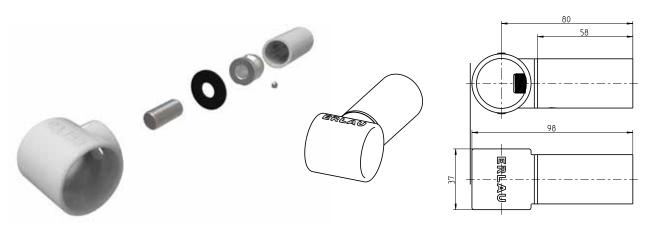

### WALL FIXING SET

- Made of corrosion-resistant aluminium, powder-coated or anodised in a high-gloss polish finish
- To connect or affix long hand rails comprising several individual sections of hand rail to the wall.
- Suitable for Erlau shower hand rails, shower rails and grab handles
- Set contents: 1x wall fixing and 1x tube joint, including concealed centralised fixing without rosettes

#### WALL FIXING SET

The wall fixing set is used to affix grab handles or hand rails to a wall. It allows you to create long hand rails comprising several individual tube sections. Hand rails or grab handles affixed with the wall fixing set have a WLL of up to 150 kg, providing that the distance between the two wall fixing points is max. 900 mm (where the distance is max. 1,500 mm, the permissible load is 100 kg). By positioning the wall fixings in specific places it is possible to provide additional safety for longer self-supporting sections by dividing them up accordingly.

<sup>\*</sup> Please add the desired colour number to the last digits of the article no.:

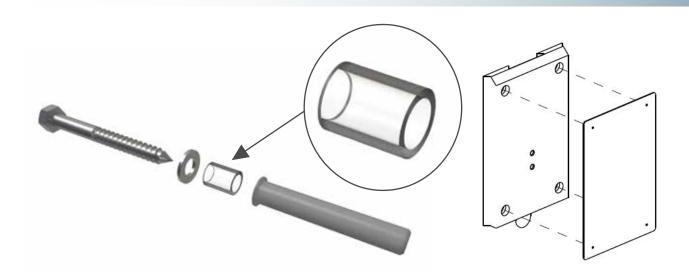

### **DRILL HOLE GASKET**

- Silicone seal, suitable for Erlau shower hand rails, shower rails, grab handles or grab rails and shower seats
- Meets the requirements of the series of standards for seals DIN 18534 / ETAG 022

#### **SILICONE TUBE GASKET** (suitable for Erlau shower hand rails, shower rails and grab handles)

Article name	Units in pack	Art. no.	
Gaskets in set of 10	10	50 080 69	
Gaskets in set of 30	30	50 080 70	
Gaskets in set of 100	100	50 080 71	

#### **MOUNTING PLATE SEAL** (suitable for Erlau grab rails and shower seats)

Seal for VPX (suitable for folding grab rail XSK, XSE, XSS and			
folding shower seat DKX)	1	50 077 07	

**The DIN 18534 series of standards for seals** stipulates that surfaces subject to spray, water for domestic or industrial use and cleaning water need to be sealed. ERLAU drill hole gaskets meet these requirements and have been proven\* to prevent moisture from penetrating the substrate via drill holes at the points where the fixing elements meet the (ceramic) surface.

\*Proven based on ETAG 022 "Guideline for European Technical Approval of Watertight Covering Kits for Wet Room Floors and Walls - Part 1: Liquid applied coverings with or without wearing surface" and the test described in Annex F to the ETAG 022: "Water tightness around penetrations and other details in wet room walls with flexible substrate"

<u>6</u>

- · For WC flush and emergency calls
- Suitable for Erlau grab rails XSK, XSK Direct, XSS, XSE
- 2-channel flush-mounted receiver can be pre-fitted
- Transmitter unit with pictograms and Braille
- Transmitter without batteries and with energy-harvesting functionality (Piezo button)
- Compatible with EnOcean technology

#### **General information**

The receiver has two outputs and works in conjunction with the Erlau transmitter ESA-X and ESA-X emergency call, which can be used to control the flush and to control a call system.

#### Installation

The radio receiver is suitable for flush mounting. Alternatively, the radio receiver can be affixed to the toilet system (for example).

#### **Technical data**

Power supply 4-24 VDC
Button output max. 2x100 mA

Power consumption approx. 80 mA at 4 VDC /

approx. 10 mA at 24 VDC Switch contact: 1x NOC (For call system 1x NOC,

1x break-contact NC available on request)

Ambient temperature -20° to +55° C Rel. Humidity 0% to 95% Approval CE

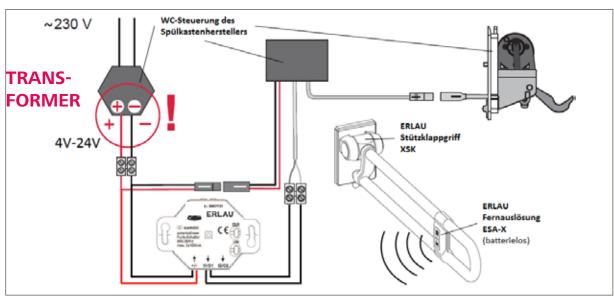

Safety class equivalent to IP20

Dimensions (LxWxH) approx. 50 x 50 x 30 mm

Schematic drawing

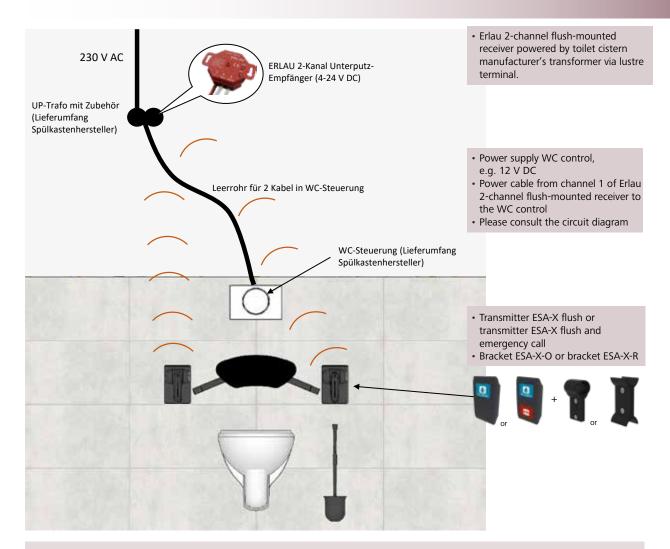

2-channel flush-mounted receiver

# Design principles

Nothing works without the right planning. We always work with DIN 18040 in mind!

# DESIGN PRINCIPLES UNIVERSALLY ACCESSIBLE CONCEPTS DIN 18040

### **DIN 18040-1**

This standard aims to ensure accessible buildings that can be accessed by people with disabilities, the elderly and people with young children without barriers and that can be utilised without the need for any additional assistance.

DIN 18040-1 is limited to publicly accessible buildings, in particular the parts of the building and the associated outdoor spaces that are intended to be used by the general public. These requirements are especially applicable to cultural and educational buildings, as well as office, administrative and judicial buildings, shops and accommodation, car parks, parking garages and public toilets.

### **DIN 18040-2**

This part of the standard applies to the accessibility of dwellings, whereby a distinction is made between accessible dwellings and accessible dwellings that can be used unrestricted with a wheelchair (R). The fact that accessibility means more than wheelchair use is documented by the additional requirements in terms of sensory and cognitive limitations.

The requirement to be able to retrofit the bathroom area on site is a new addition. The walls must be prepared in such a way that rails and handles can be affixed at a later date. This needs to be taken into the account during the planning and building stages. "Barrier-free concepts" are distinguished by the fact that they can be adapted to suit changing requirements.

### **TOILET AREA**

DIN 18040 - 1 PUBLICLY ACCESSIBLE

Space to move in front of the WC	150 x 150 cm.
Space to move between the WC and the wall	90 cm width (left and right).
WC seat height	46-48 cm including seat.
WC depth	Projection min. 70 cm.
Back support	55 cm behind the front edge of the WC. Toilet lid does not count.
Folding grab rails	Left and right, can be folded up at different levels (brake). Upper edge of folding grab rail 28 cm above toilet seat height. Folding grab rail must project at least 15 cm in front of the front of the toilet bowl. Clearance distance between the folding grab rails 65 - 70 cm.  Load-bearing capacity: point load of 1 kN at the front end of the rail.
Toilet roll holder	Can be reached without needing to change position.
Toilet flush	Can be reached with the hand or arm without needing to change position.
Waste bin	Optional: a place to dispose of hygienic waste should be provided.
Emergency call system	To be positioned close to the WC so it can be reached when sitting on the toilet and when lying on the floor.

### **TOILET AREA**

### DIN 18040 - 2 WHEELCHAIR-ACCESSIBLE DWELLING

Space to move in front of the WC	150 x 150 cm.
Space to move between the WC and the wall	One side at least 90 cm (left or right); the other side at least 30 cm.
WC seat height	46-48 cm including seat.
WC depth	Projection min. 70 cm.
Back support	55 cm behind the front edge of the WC. Toilet lid does not count.
Folding grab rails	Left and right, can be folded up at different levels (brake). Upper edge of folding grab rail 28 cm above toilet seat height. Folding grab rail must project at least 15 cm in front of the front of the toilet bowl. Clearance distance between the folding grab rails 65 - 70 cm.  Load-bearing capacity: point load of 1 kN at the front end of the rail.
Toilet roll holder	Can be reached without needing to change position.
Toilet flush	Can be reached with the hand or arm without needing to change position.

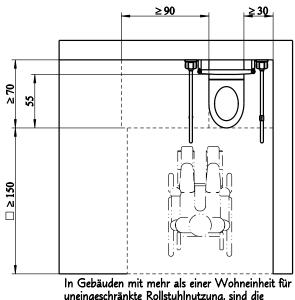

### DIN 18040 - 2 ACCESSIBLE DWELLING

Space to move in front of the WC	120 x 120 cm.
Space to move between the WC and the wall	Min. 20 cm.
WC seat height	Custom.
WC depth	Custom.
Folding grab rails	Custom.
Toilet flush	Custom.

In the case of front-wall installation, please check to ensure that the system you have chosen allows for the type of assembly shown in the diagrams shown below the requirements.

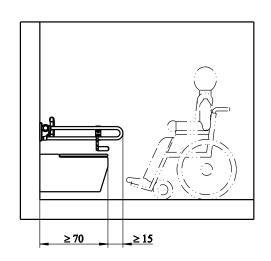

# Compliant with DIN 18040-1 ≥ 90 ≥ 90 √ 0L × 0SI × 0

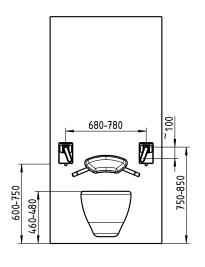

### Compliant with DIN 18040-2

In Gebäuden mit mehr als einer Wohneinheit für uneingeschränkte Rollstuhlnutzung, sind die Zugangsseiten zur Toilette abwechselnd rechts oder links vorzusehen.

### Compliant with DIN 18040-1 and DIN 18040-2

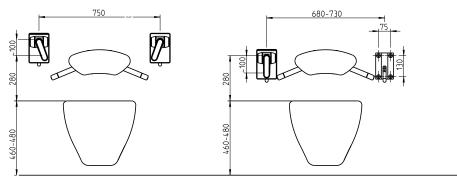

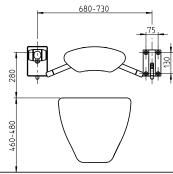

ERLAU recommendation Folding grab rail XSK inclination 20°

Compliant with DIN 18040-1 Folding grab rail XSK Direct

Compliant with DIN 18040-1 Folding grab rail XSE

When using a back support, the distance must be 730 mm (clearance 700 mm) from the folding grab rails.

### **WASH BASIN AREA**

### **DIN 18040 - 1** PUBLICLY ACCESSIBLE

Space to move in front of the wash stand	150 x 150 cm.
Installation height for the upper edge of the wash stand	Front edge height max. 80 cm.
Mirrors	Min. 100 cm tall. To be placed above the wash basin. Must be able to view the mirror from a seating and standing position.
Wheelchair clearance	Wheelchair clearance of min. 55 cm. Leg room 67 cm, measured up to 30 cm beyond the front edge of the wash stand. Wheelchair can fit below 90 cm width of wash stand.
Wheelchair clearance for wash basin	Wheelchair clearance of min. 45 cm.
Controls	Must be located close to the wash stand.
Coat hooks	If coat hooks are planned: in at least 2 heights, for people who are seated and standing.
Erlau's INSTALLATION RECOMMENDATION: (Grab rail + shelf = grab rail with shelf)	<ul> <li>Grab rail with shelf - shelf with full length grab rail.</li> <li>For convenient support when standing and sitting down.</li> <li>For safe raising from a seated position.</li> </ul>

### **DIN 18040 - 1 WHEELCHAIR-ACCESSIBLE DWELLING**

Space to move in front of the wash stand	150 x 150 cm.
Installation height for the upper edge of the wash stand	Front edge height max. 80 cm.
Mirrors	Min. 100 cm tall. To be placed above the wash basin. Must be able to view the mirror from a seating and standing position.
Wheelchair clearance	Wheelchair clearance of min. 55 cm. Leg room 67 cm, measured up to 30 cm beyond the front edge of the wash stand. Wheelchair can fit below 90 cm width of wash stand.

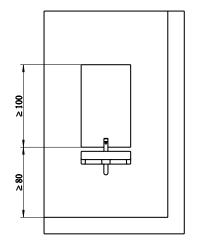

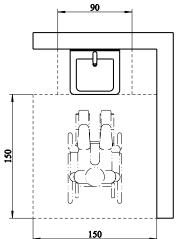

### **WASH BASIN AREA**

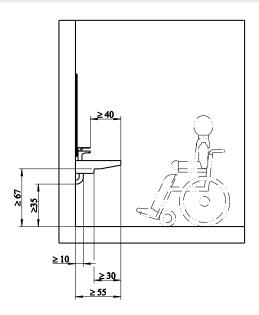

### DIN 18040 - 2 ACCESSIBLE DWELLING

Space to move in front of the wash stand	120 x 120 cm.			
Installation height for the upper edge of the wash stand	Custom.			
Mirrors	As required. 100 cm tall.  To be placed above the wash basin.			
Wheelchair clearance	Space to move legs required.			
Erlau's INSTALLATION RECOMMENDATION: (Grab rail + shelf = grab rail with shelf)	<ul> <li>Grab rail with shelf - shelf with full length grab rail.</li> <li>For convenient support when standing and sitting down.</li> <li>For safe raising from a seated position.</li> </ul>			

### **SHOWER AREA**

### **DIN 18040 - 1** PUBLICLY ACCESSIBLE

Space to move in the shower area	150 x 150 cm.			
Shower seat	<ul> <li>Folding shower seat required.</li> <li>Seat height 46 - 48 cm.</li> <li>Seat depth min. 45 cm.</li> <li>Alternative: portable, stable shower seat.</li> </ul>			
Folding grab rails	<ul> <li>A folding grab rail must be installed on both sides of the folding shower seat.</li> <li>Upper edge of the folding grab rail 28 cm above seat height.</li> <li>Front edge projecting 15 cm beyond the seat.</li> <li>Distance between the folding grab rails 65 - 70 cm.</li> </ul>			
Grab rails	Horizontal grab rails must be positioned at a height of 85 cm above the top edge of the flooring.  Vertical grab rails must also be installed.			

### **DIN 18040 - 2** WHEELCHAIR-ACCESSIBLE DWELLING

Space to move in the shower area	150 x 150 cm.
Shower seat	Option to install a seat at a later date.  Seat height 46 - 48 cm.
Folding grab rails	Option to install folding grab rails on both sides of the seat at a later date.

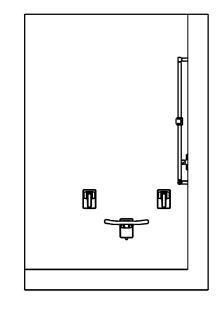

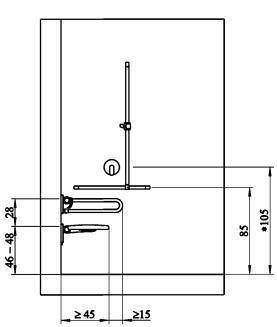

### **SHOWER AREA**

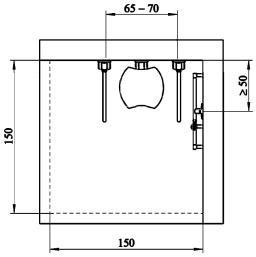

### DIN 18040 - 2 ACCESSIBLE DWELLING

Space to move in the shower area	120 x 120 cm.
Shower seat	Custom.

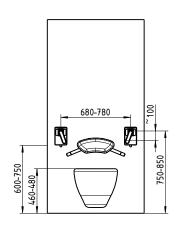

\*At stacked operating elements otherweise 85 cm upper floor level

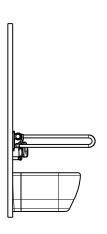

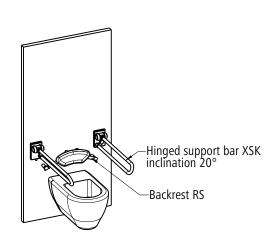

# **TOILET AREA**AUSTRIAN STANDARD B 1600

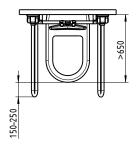

Space to move in front of the WC				
Distance between the WC and the wall	Wall to centre of WC 45-50 cm.			
WC seat height	46-48 cm including seat.			
WC depth	Projection min. 65 cm.			
Back support	60-75 cm above top of flooring; back support required for seat depths of over 55 cm.			
Grab rail and folding grab rail assembly height	Upper edge of single rail min. 75 cm; upper edge of double rail max. 85 cm. Rails projecting 15-25 cm above the upper edge of the WC, horizontal distance between the rails 65-75 cm, for toilets that can be accessed from one side only, angled grab rail on the wall with vertical length of min. up to H=150 cm; horizontal min. 50 cm.			
Toilet roll holder	Left and right on the seat-height grab rail.			

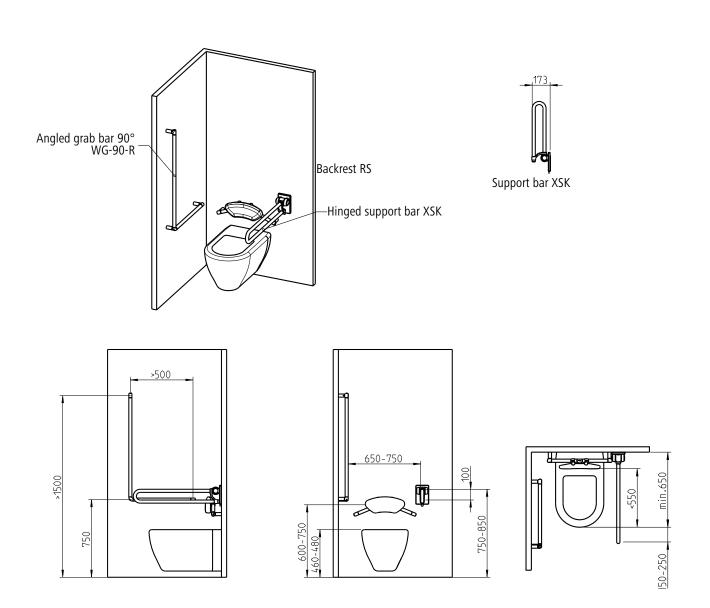

# **TOILET AREA**AUSTRIAN STANDARD B 1600

**EXAMPLE INSTALLATIONS** 

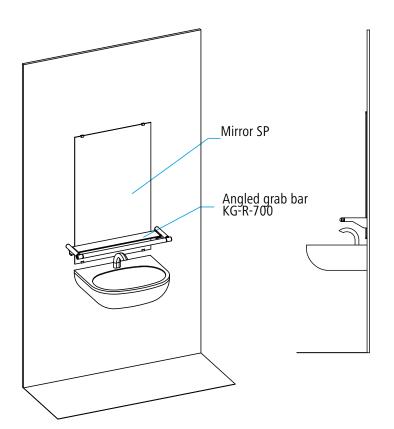

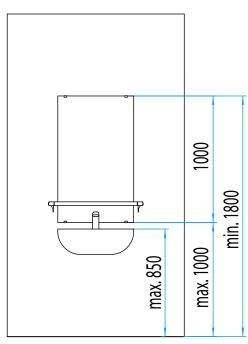

### WASH BASIN AREA AUSTRIAN STANDARD B 1600

Installation height	80-85 cm, projection min. 45 cm. For wash basins min. 35 cm with minimum room width of 165 cm.			
Mirrors	Bottom edge of mirror max. 95 cm. Upper edge of mirror min. 180 cm.			
Wheelchair clearance	Wheelchair can fit below min. 100 cm width. Min. continuous height of 70 cm, flush-mounted or surface-mounted syphon.			
Controls	Installation height 80-110 cm and can be used at a distance of min. 20 35 cm from the front edge of the wash stand.			
Coat hooks	Min. 2 coat hooks at a height of max. 120 cm.			
Installation recommendation (Grab rail + shelf = grab rail with shelf)	Toilet roll holder, paper towel dispenser, soap dispense at a height of 80-110 cm.			

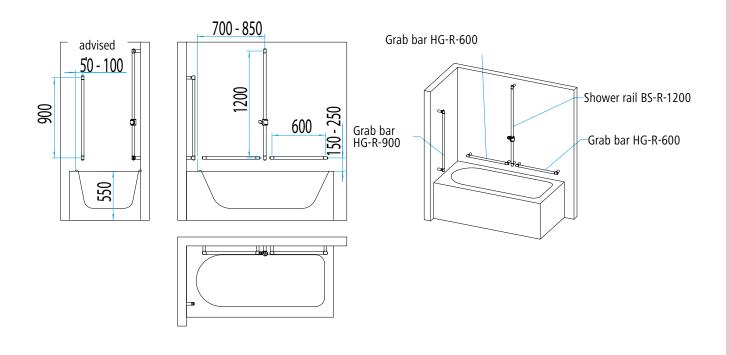

### SHOWER AREA AUSTRIAN STANDARD B 1600

Large shower area	Min. 150 x 150 cm or 130 x 180 cm, accessible from 2 sides via corner.		
Shower seat	Seat size min. 40 x 40 cm. Seat height 46 x 48 cm. Centre distance from the corner 45-50 cm.		
Folding grab rail	Rather than installing a horizontal grab rail next to the folded seat, it is possible to install a folding grab rail with a horizontal distance of 65-75 cm between the rails, $L = 70-85$ cm. In the case of permanently installed chairs, installing a horizontal grab rail in the seat area is not a necessity.		
Grab rails	Horizontal grab rails upper edge min. 75-85 cm, vertical grab rail from 75 cm up to a height of min. 150 cm with min. distance of 70-85 cm from the corner, can also be used as a shower rail.		
Accessories Soap dish.			
Shower curtain / shower splash protection	Shower partitions must be flexible (curtain) or must be able to be folded away; must not restrict the space in which there is to move.

# **TOILET AREA** SIA 500

PUBLICLY ACCESSIBLE

Distance between the WC and the wall	Wall to centre of WC 45 cm.			
WC seat height	46-48 cm including seat.			
WC depth	Projection min. 65 cm.			
Back support	For toilets with flush-mounted cistern, 15-20 cm from rear wall or cistern.			
Assembly height of grab rail and folding grab rails	70-75 cm. Angled grab rail projecting 20-25 cm from front edge of WC, length min. 50 cm, vertical upper edge min. 170 cm; folding grab rail projecting min. 10 cm from WC; folding grab rail on the outer side, distance from centre point of WC to centre point of folding grab rail 35 cm.			
Toilet roll holder	Affixed below the horizontal grab rail.			
Operation of folding rail	Single-handed.			
Coat hooks	On the wall, 1.10 m above floor level, opposite toilet bowl/wash basin.			

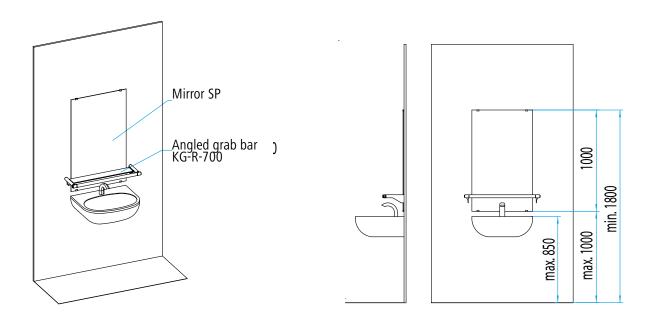

# WASH BASIN AREA SIA 500

WHEELCHAIR-ACCESSIBLE DWELLING

Installation height for the upper edge of the wash stand	85 cm, projection 35-40 cm (public bathrooms).			
Mirrors	Affixed, tilting mirrors not permitted. Lower edge max. 100 cm above floor, upper edge min. 180 cm.			
Wheelchair clearance for wash basin	70 cm in the knee area.			
Controls	Operating height max. 110 cm.			
Coat hooks	Installation height 110 cm.			
INSTALLATION RECOMMENDATION (Grab rail + shelf = grab rail with shelf)	<ul> <li>Grab rail with shelf - shelf with full length grab rail.</li> <li>For convenient support when standing and sitting down.</li> <li>For safe raising from a seated position.</li> </ul>			

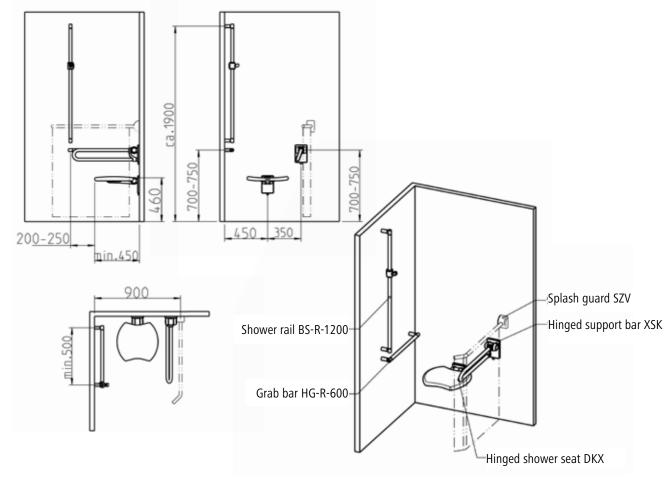

**DESIGN PRINCIPLES** 

# SHOWER AREA SIA 500

WHEELCHAIR-ACCESSIBLE DWELLING

Large shower area	90 x 110 cm, or for communal showers 90 x 140 cm. Separated by shower curtain. Drying area. At least 30 cm larger than shower area.		
<b>Shower seat</b> Folding shower seat, projection min. 45 cm, seat height 46 cm.			
Folding grab rail	Folding grab rail on the side with open space next to the folding shower seat; single-handed operation. Installation height 70-75 cm.		
Grab rails	Horizontal grab rail, installation height 70-75 cm; vertical grab rail with adjustable shower holder, upper edge approx. 190 cm above floor level.		
Accessories	Clothing hook 110 cm above floor level. Soap dish positioned next to the shower.		
Shower curtain / shower splash protection	Yes.

# CLEANING RECOMMENDATIONS

# Please note the following when cleaning our products:

- Only use cleaning agents intended for cleaning bathroom fittings.
- Avoid heavily acidic aids, which contain hydrochloric acid, nitric acid, phosphoric acid, acetic acid and formic acid for example.
- Avoid strong auxiliary materials containing lyes,
  e.g. bleach lyes, industrial cleaners, barbecue and
  pipe cleaners, floor cleaners and solvents (e.g.
  acetone).
- For cleaning, use a soft cloth, e.g. microfibre, and avoid abrasive cleaners and brushes, scouring pads and kitchen sponges as these can damage the surface.
- Do not spray the cleaning product directly onto the product, but apply it using a cleaning cloth.

- After cleaning, rinse the product with clear water or wipe off any remaining detergent with a cloth.
- Remove dirt and residues of body and cleaning products such as soap and shampoo from the product as early as possible to prevent them from sticking to the surface.
- Observe theapplication instructions of the cleaning product manufacturer (concentration and contact time).
- Where surfaces have become damaged during use, the damage may be increased by exposure to cleaning products of any kind.

In order to be able to guarantee that your Erlau products maintain their high visual appeal and a long service life, we recommend that you gently clean the parts on a regular basis.

Improper handling or improper care can attack or damage the surface. No warranty can be given for any damage resulting from this.

# Delivery and payment conditions:

All prices are in EURO per item plus VAT. Delivery ex works Aalen on the basis of our General Terms and Conditions of Sale (GTC). These can be found online at www.erlau.com, subject to meeting the conditions of our commercial credit insurance.

Our invoices are payable within 30 days without deduction.

Complaints of any kind will only be considered within 14 days after receipt of the goods. Immediately upon receipt of the goods, the recipient shall inspect them both quantitatively and qualitatively to determine whether they deviate from the contractually agreed quality. You must notify us in writing of any obvious defects within 14 days of receiving the goods. You must notify us in writing of any non-obvious defects as soon as they become apparent and within max. 6 months of receiving the goods.

Postal or carrier deliveries within the Federal Republic of Germany are generally carriage paid (with the exception of express deliveries).

For shipments outside the German mainland, freight is offered and charged individually.

The packaging will neither be charged nor taken back; seaworthy packaging, however, will always be invoiced. Within the Federal Republic of Germany, our packaging can be registered for collection with Interseroh.

All prices are without installation work. Detailed instructions are available for installation by clients. Unloading and/or dividing up the ordered goods to individual floors, storage locations and parking spaces is not part of our scope of services.

We exclude the return of goods without our express consent.

If we agree to take back goods, only our return notes are to be used.
